

Lecture 11 Program 1

```
# Lecture 11 Program 1  
# Practice with system call 4
```

```
main:    .text  
         la $a0, str  
         li $v0, 4  
         syscall  
         li $v0, 10  
         syscall  
  
str:     .data  
         .ascii z "Hello, world! \n"
```
